

Midwest Topology Seminar
Saturday, April 17, 1993
University of Notre Dame

- 10:00 am – Stephan Stolz
Non-connected Moduli Spaces of Positive Sectional Curvature Metrics.
- 11:30 am – Bruce Hughes
Stratified Spaces and Approximate Fibrations.
- 2:30 pm – Igor Kriz
Ring and Module Structures in Topology.
- 4:00 pm – David Benson
A Hyperplane Formula in Modular Invariant Theory.

All times are Eastern Standard, which is the **same** time as Chicago on April 17.

Coffee will be in room 200 of CCMB (the Math. Dept.) starting at 9 am.

There will be a party after the last talk at Frank Connolly's. Detailed time and directions will be provided.
