

MIDWEST TOPOLOGY CONFERENCE

University of Illinois at Chicago

Saturday - February 25, 1995

- 10:00 AM** Benson Farb (University of Chicago)
Relatively hyperbolic and automatic groups with applications to negatively curved manifolds
- 11:30 AM** Stephan Stolz (Notre Dame)
A conjecture concerning positive Ricci curvature and the Witten genus
- 2:30 PM** Ron Fintushel (Michigan State University)
The Monopolization of 4-Manifolds
- 4:00 PM** Vassily Gorbounov (Northwestern University)
The Morava stabilizer group in stable homotopy theory

The party for conference participants will be held immediately after the talks, beginning at 5:30 pm.

Current conference information is posted on the web:
