

THE UNIVERSITY OF CHICAGO
NAMBOODIRI LECTURES AND MINI-CONFERENCE

April 26-30, 1996

Dusa McDuff, Namboodiri Lecturer

Friday, April 26

4:00 Dusa McDuff: *Symplectic four manifolds*
(Ryerson 251)

Saturday, April 27 (All talks in Eckhart 206)

9:30 Eleny Ionel: *Genus 1 enumerative invariants in P^n*

11:00 Robert Gompf: *Stein surfaces and low dimensional topology*

2:30 Margaret Symington: *Gluing constructions for symplectic four manifolds*

4:00 Victor Ginzburg: *Interesting Lagrangian subvarieties in moduli spaces*

Sunday, April 28 (All talks in Eckhart 206)

10:30 Francois Lalonde: *Classification of symplectic structures on ruled 4-manifolds*

2:00 Gordana Matic: *Isotopy of contact structures and Seiberg-Witten invariants*

3:30 Ron Fintushel: *Geography of four manifolds*

Monday, April 29

4:00 Dusa McDuff: *Symplectic four manifolds*
(Ryerson 251)

Tuesday, April 30

4:00 Dusa McDuff: *Symplectic four manifolds*
(Ryerson 251)

The Spring Midwest Topology Seminar will be on May 11, also at the University of Chicago.
